From : January 28, 2015
To : January 31, 2015
At **BOMBAY EXHIBITION CENTRE**

Matsui Machine Ltd.

FENIX®

Chemtech which is the most largest chemical exhibition in India in 2015.
There were not only many companies in India but companies from countries to attend at the exhibition.

The exhibition hall is Bombay Exhibition Center in Mumbai which is a city on the west coast of India.
The headquarter of Fenix Process Technologies Pvt. Ltd. is located in PUNE which is a city that is 170 km southeast of Mumbai.

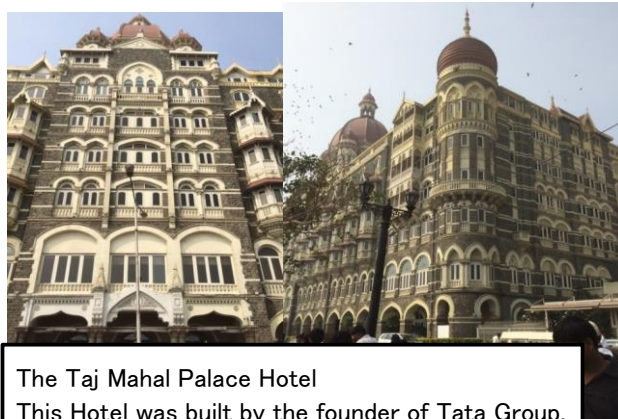

There are many old European-style buildings in India.

This is a station in Mumbai called Chhatrapati Shivaji Terminus.
It is one of the historical buildings in India.

Gateway of India (Mumbai)

The Taj Mahal Palace Hotel
This Hotel was built by the founder of Tata Group.
This remarkable building is a fusion of Indian and Western architecture.

Scene in Chemtech (Exhibition Hall)

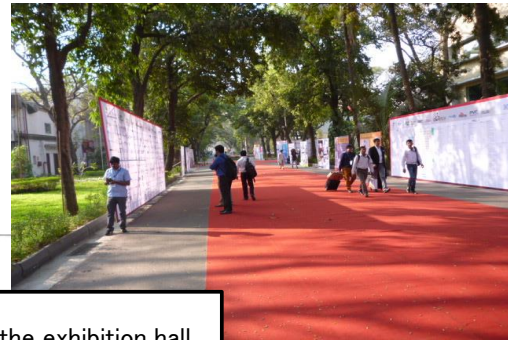

Our company exhibited our products at the booth of Fenix Process Technologies Pvt. Ltd. (hereafter in referred to as FENIX) as the company doing the joint exhibition with them. Since we have Partnership Agreement with FENIX, we could have the opportunity to exhibit. We can provide various suggestions utilizing the collaboration work of FENIX and us to users who are not only in India and Japan but in the world.
