★Flooding calculation form
★Request form for simulation (for Distillation, Absorption, Batch distillation)

★CASCADE MINI RING® is Matsui Machine's registered trademark.

★We have products for aqueous application and various other products. Please feel free to ask us.

The image shows a collage of website elements. At the top, there's a navigation bar with 'HOME', 'COMPANY', 'PRODUCTS', 'INFORMATION', 'DOWNLOADS', and 'CONTACT US'. Below this is a banner for 'INTERNALS FOR RANDOM PACKING II' featuring four types of packing: M-PAK, MIPAK, MTPAK, and Super Intalox saddle. A 'WHAT'S NEW' section lists updates from 2013.10.10 to 2013.12.27. On the right, a 'PRODUCTS' list includes Cascade Mini Ring, MC Pack / Distributor, General Random Packing, and General Structured Packing. A detailed view of 'General Structured Packing' shows a mesh structure and technical specifications. A 'Request form for requesting a flooding check of random packing (absorption)' is also visible, with fields for Date, Item No., and Item Name, and a table for Section, Top, and Bottom.
